"THE LOST CANOE."—A magnificent picture

14 x 18 inches in size, beautiful in design and

artistic in execution. It represents a comfidi-

ate soldier after the war returning to his home,

of the ruined cottage, telling a sad tale of the

miseries of war, are two graves with rude

crosses, on one of which a friendly hand has

hung a garland. To the right the calm river

and the rising moon indicate peace and rest.

The stars, seen through the trees, represent the

Southern Cross. It is a picture that will touch

every Southern heart, and should find a place

in every Southern home. One copy sent by

## Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chills, Biliousness, Headache, Stomach Disorders, and all the ailments which arise from malarious, marsh, or miasmatic poisons.

This is a compound remedy, prepared with scientific skill from vegetable ingredients, which rarely fails to cure the severest cases of Chills and Fever and the concomitant disorders. Such a remedy the necessities of the people in malarious districts demand. Its great superiority over any other medicine yet discovered for the cure of Intermittents, is that it contains no quinine or mineral, and those who take it are free from danger of quinine or any injurious effects, and are as healthy after using it as before. It has been extensively employed during the last thirty years in the treatment of these distressing disorders, and so universally has been its success that it has gained the reputation of being infallible. It can, therefore, be safely recommended as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South. It counteracts the miasmatic poison in the blood, and frees the system from its influence, so that fever and ague, shivers or chills, once broken up by it, do not return until the disease is again contracted.

The great variety of disorders which arise from the irritation of the system, such as Neuralgia, Rheumatism, Gout, Headache, Biliousness, Toothache, Earache, Catarrh, Asthma, Palpitation, Splenic Affections, Hysteria, Pain in the Bowels, Colic, Paralysis, and derangement of the Stomach, all of which become intermittent or periodic, have no speedier remedy than AYER'S AGUE CURE, which cures them all alike, and protects the system from future attacks. As a preventive, it is of immense service in those communities where Fever and Ague prevails, as it stays the development of the disease if taken at the first approach of the preliminary symptoms. Travelers and temporary residents are thus enabled to defy these disorders, and few will ever suffer if they avail themselves of the protection this remedy affords.

For Liver Complaint, arising from torpidity, it is an excellent remedy; it stimulates the organ into healthy activity, and produces many remarkable cures where other medicines fail.
